Group Assignment

Project Title: Implementation of a Cryptographic Technique

▶ **Group Size:** 4 members per group
Submission Deadline: January 20, 2025

▶ **Project Requirements:**
Each group is tasked with implementing a cryptographic technique as a software tool capable of performing encryption and decryption. There are no restrictions on the technology or programming language used to develop the tool.

▶ **Submission Instructions:**

1. **Demonstration Video**: A group member should upload a video demonstration of the tool to the designated shared folder in the Virtual Learning Environment (VLE).

2. **Group Details**: Representative should upload an Excel sheet with the group members' details to the same shared folder.

▶ **Note:** Ensure that all materials are uploaded by the deadline.
